SUMMARY

I am a resourceful and versatile engineer with experience in manual testing, automation QA, performance QA, DevOps, and database management. I am committed to ongoing development in backend and frontend technologies. My transition from civil engineering to IT underscores my adaptability and my ability to effectively bridge gaps and contribute to projects.

EXPERIENCE

Software Quality Engineer - IC2

ServiceNow

- 07/2024 - Present Hyderabad, Telangana, India
- Performed manual and automation testing for platform security - cryptography.
 - Planned and maintained test cases.

SDET

Volansys (an ACL Digital Company)

- 02/2024 - 06/2024 Ahmedabad, Gujarat, India
- Performed automation and manual testing of embedded systems.
 - Planned and maintained test cases.

Systems Engineer

Tata Consultancy Services

- 10/2022 - 02/2024 Gandhinagar, Gujarat, India
- Automated the application build and deployment processes, enhancing the efficiency of the code development workflow.
 - Managed PostgreSQL databases and analyzed test case results to detect issues and track root causes.

Assistant Systems Engineer

Tata Consultancy Services

- 10/2020 - 09/2022 Gandhinagar, Gujarat, India
- Worked in automation, performance, and manual testing; reported multiple bugs.
 - Designed, developed, and improved test plans; performed testing using JMeter; generated HTML reports for continuous integration with Selenium.

Final Year Internship

Institute of Technology, Nirma University

- 01/2020 - 05/2020 Ahmedabad, Gujarat, India
- Developed an Artificial Neural Network model using GPS and MERRA 2 data to detect disturbances in NavIC accuracy.
 - Achieved a validation accuracy of 93.1%.

EDUCATION

Bachelor of Technology

Institute of Technology, Nirma University

09/2016 - 05/2020 Ahmedabad, Gujarat, India

CGPA

7.63 / 10.0

12th Science

Kendriya Vidyalaya

2016 Ankleshwar, Gujarat, India

Percentage

85.8 / 100

CERTIFICATES

Robot Framework with Python

Python

Selenium Webdriver with Python

Java

Scientific Computing with Python

C++

SKILLS

Python	Java	C++	Selenium	TestNG	PyTest	Robot Framework	JMeter	Postman	IoT	PostgreSQL
MySQL	DynamoDB	JIRA	Confluence	Jenkins	SVN	Git	Maven	Docker	MS Office	Confidence
Communication	Leadership	Time Management	Continuous Learning	Critical Thinking	Teamwork	Adaptability
